

POINTSHARP

security made easy

Welcome!

Lukas Baart
Solutions Engineer

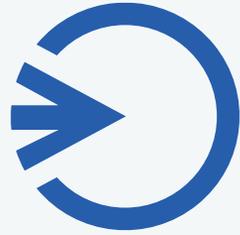

Who are Pointsharp?

European security company

Security made **easy**

Founded 2006

POINTSHARP
security made easy

MAIN
CAPITAL PARTNERS

secmaker

2021

Cryptshare

2022

2023

Growth strategy

Broaden product offering

Geographic presence

European security vendor

User-friendly

Easy to manage

Flexible

The digital workplace

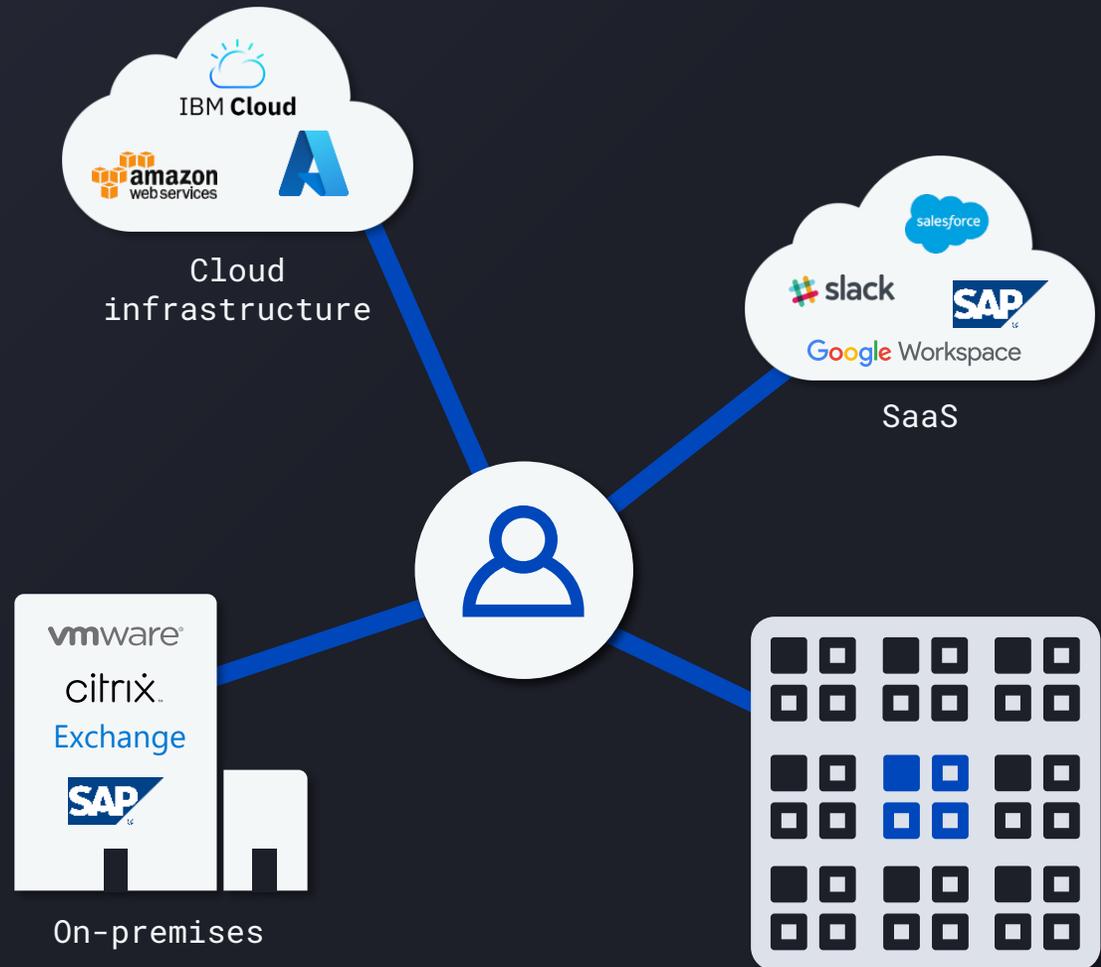

When it was easy

Internal network

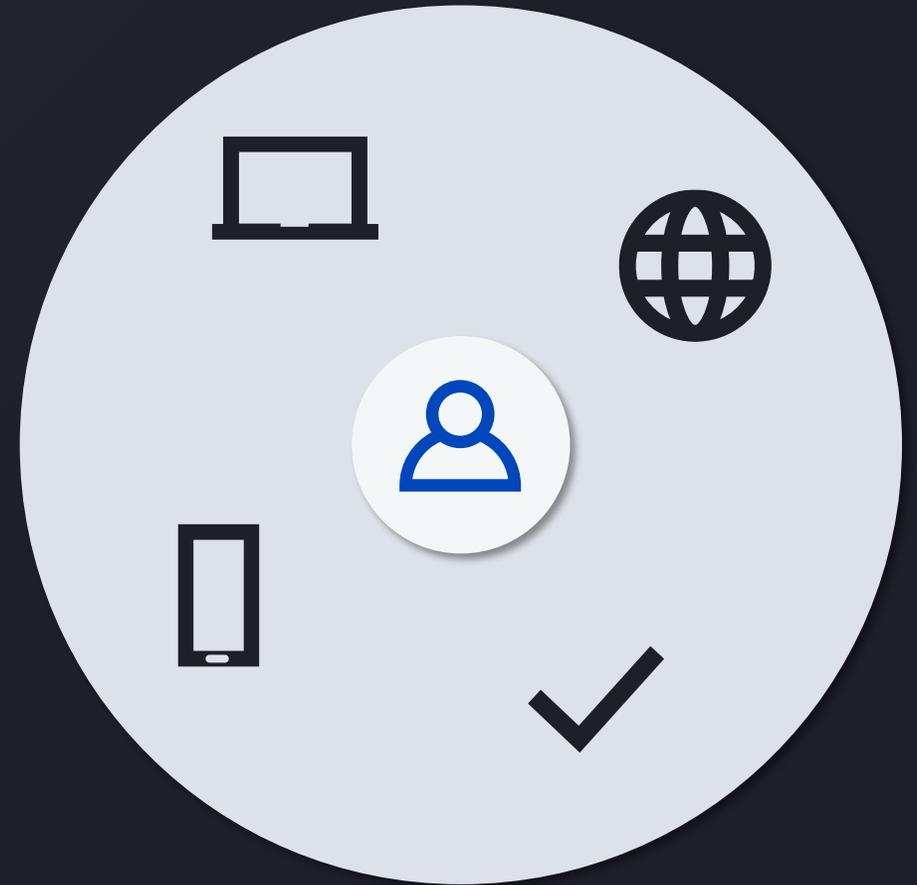

Today

The new user

Some of the challenges

Keeping identity data in sync

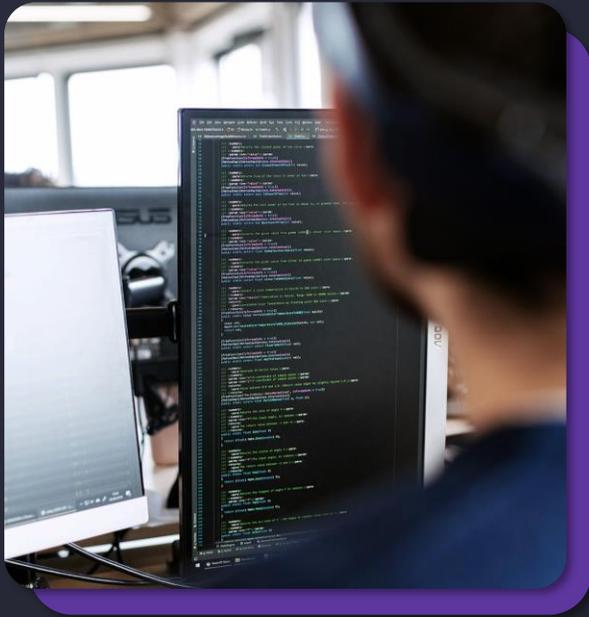

On-prem and cloud access

MFA for all applications

Hard to audit

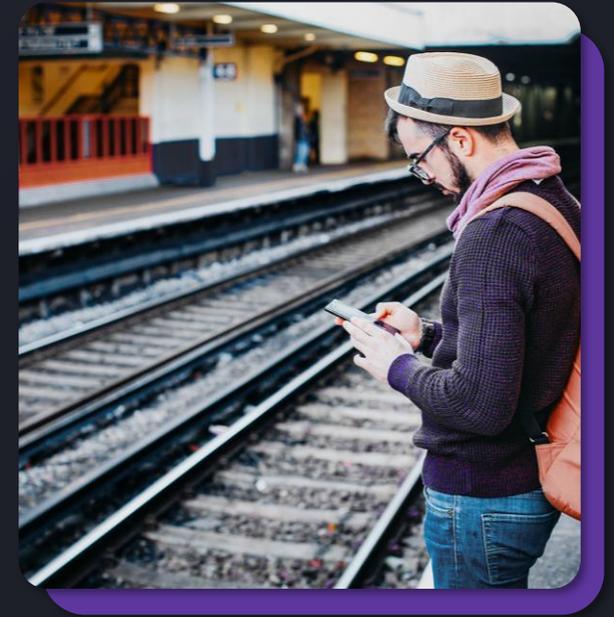

This results in

**Increased
administration**

**Worse user
experience**

**Higher security
risks**

74% – 95%

Of data breaches are
linked to human behavior

Source: According to Verizon, IBM and Ponemon Institute Report

A solution should:

**Automate & centralize
management**

Mitigate human risk factors

Unify user experience

Help with compliance

5 steps to create a secure digital workplace

Identities

- Automated lifecycle management
- Single source of truth
- Good role management

Access

- Unified access for all applications
- Smart access controls
- Single sign-on

Authentication

- Consistent user experience
- Flexible authentication methods
- Phishing resistant alternatives

Compliance

- Segregation of duties
- Trusted and easily accessible audit trails
- Automated checks and reporting

Digital workplace

- Modernized on-prem access for remote work
- Secure communication
- User-experience in focus
